The progression of the Construction of the Arch Ship. Complete building the Ship to escape the Planet !

Oxygen Canisters
Consumed by the Crew. Vital to the Colony. Running out of Oxygen Canisters will quickly begin to kill the members of the crew.

No Shed Available !
Build a Shed in order to store the resources produced by this building.

Farm

2/3 (+16)

Extra consumption for this building's workers :

+ 6 oxygen + 8 food

Kylo

Indes

Empty

Consumption Rate : -12 -16

The Arch Ship

Next Construction Step : Hull

Cost: 1000/2500 350/950

Build

Produces Oxygen Canisters from Forest tiles containing white trees. The more tiles in its area of effect, the more production.

Cost: 10 05 | Requires: Oxygen
